PIN IT!

Missouri Competitive Event
State Leadership Conference
Pre-Submit Event

Trading pins are an exciting part of National Leadership Conference (NLC)! Each state at NLC has their own design and attendees trade with each other at workshops, general sessions, and other conference spaces. The goal is to collect a pin from every state at NLC! Pin It! is an individual event that allows our members to showcase their creativity and artistic skills and be named pin designer of our national trading pins for the year.

Create a design that starts a conversation about the great state of Missouri and have national attendees searching to find the Missouri pin to add to their collection. You can create anything that represents Missouri or Missouri FCCLA. All artwork should be school-appropriate and use professional language. Designs should be hand-drawn using traditional art materials or digital art software and should be original – templates from graphic design software, such as Canva and Adobe, will be disqualified. Use of artificial intelligence (AI) is strictly prohibited. All final art submissions must be submitted digitally and ready for print, and should follow FCCLA Branding Guidelines.

Once your design is complete go to the online form submission link under the "Compete" tab on the Missouri FCCLA Website.

- File type must be a PDF or JPEG.
- All submissions should include Student's Name, Chapter Name, and Grade.

After the deadline, the SEC/SECA will serve as a committee and narrow it down to the top 5 designs, which will be announced prior to State Leadership Conference. Attendees at State Leadership Conference will vote for their favorite pin design and the design with the highest votes will be announced during the Competitive Events Recognition Session.
